

HEXAGON

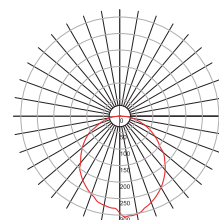

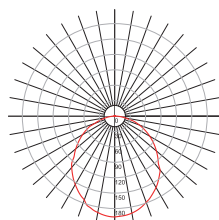

Modern LED lighting with variable colour temperature will allow you to control the atmosphere of the place- you want to relax and have a quiet evening? Then choose pleasantly warm light. Do you want to work efficiently and get things done? Then set a neutral colour. Or would you like a modern, stimulating interior? Then switch to a cool white. The dimmable option will help adjust the light intensity to fully match the interior.

This intriguing luminaire will work as both main and decorative lighting.

Technical data

	HEXAGON 40	HEXAGON 80
Power	12W	20W
Input voltage	12V DC or 24V DC	12V DC or 24V DC
Beam angle	120°	120°
Colour	monokolor or CCT	monokolor or CCT
Colour temperature	3000K, 4000K, 5000K	3000K, 4000K, 5000K
Luminous flux	550 lm	920 lm
Light source	LED	LED
Ambient temperature range	from -20°C to 40°C	from -20°C to 40°C
Dimming	dimmable	dimmable
IP code	IP40	IP40
Colour rendering index (CRI)	80, 90 (depends on the LED strip)	80, 90 (depends on the LED strip)
Energy class	A++	A++
Diffusor	Opal, PMMA	Opal, PMMA
Control	Remote controller	Remote controller
Materials, colours	Aluminium, black, silver	Aluminium, black, silver
Set up	Steel cord wires for hanging or screwed to flat surfaces.	Steel cord wires for hanging or screwed to flat surfaces.
